

Future-Proof Education Through Custom Textbook Development

Tailored print & digital textbooks in Math, Science, English & ICT

Mozaik Education started out as a textbook publisher but has since transformed into an edtech company. Today, it is an educational software and content development company offering a fully integrated digital educational ecosystem for ministries and textbook publishers. Established by mathematicians and software engineers in 1990, Mozaik is the largest privately held textbook publisher in Hungary, with a portfolio of over 1,000 different titles across all grades and subjects in K-12 education.

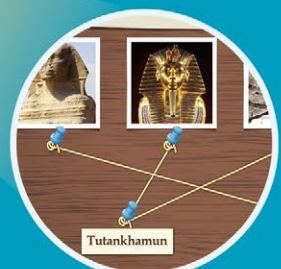

The Challenge: Preparing Students for the Future

In today's rapidly evolving world, **students must be equipped not only with knowledge, but with critical thinking, creativity, and problem-solving skills**—especially in light of emerging technologies such as AI and the digital economy. Traditional textbook models often fail to provide the engagement and interactivity necessary for modern learners.

At the same time, **governments around the world are upgrading school infrastructure** with digital devices, but the **digital educational content often lags behind**. A textbook that inspires, teaches, and builds skills - aligned with the national curriculum and infused with local cultural relevance - is essential.

According to the OECD, blended learning strategies combining digital tools with face-to-face teaching can improve both equity and quality in education (*OECD, 2023: "How to make blended learning work in schools"*).

Our Solution: Customized, Curriculum-Aligned Textbooks in Print and Digital Formats

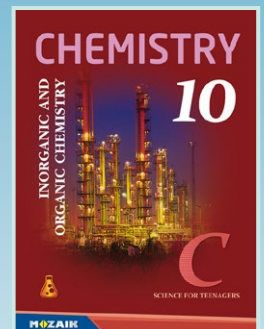

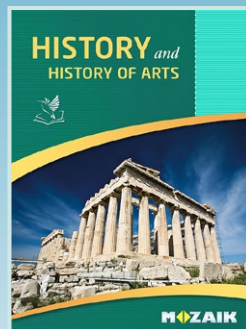

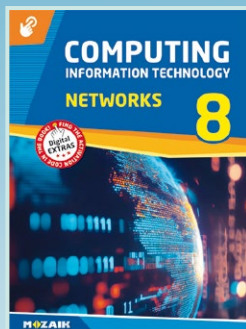

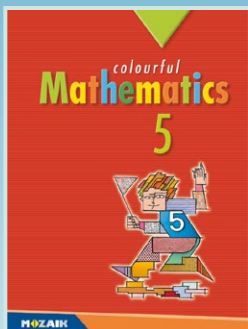

MozaiK Education offers **bespoke textbook development** in key subjects: **Mathematics, Science, English and ICT**, providing both **print and digital editions**. The digital versions are fully interactive, designed to make learning more visual, engaging and skills-based.

Our textbooks include:

- ✔ **Interactive 3D scenes** for visual exploration
- ✔ **Virtual labs** and simulations for better understanding
- ✔ **Adaptive and gamified exercises** with instant feedback
- ✔ **Cultural and environmental localization**
- ✔ **Support for offline & low-connectivity use**
- ✔ **Teacher guides, LMS features, integration, and analytics**

Why Mozaik?

- ✔ 30+ years of experience in digital educational content
- ✔ Used in over 50 countries in 46 languages
- ✔ Winner of multiple EdTech and Smart Media awards
- ✔ Flexible cooperation with Ministries and local publishers

Join Us in Shaping the Future of Education

We are ready to **collaborate with your Ministry of Education** to develop a **new generation of textbooks** –ones that support **blended learning**, build **future-ready skills**, and honour **local values**.
